

iQPUMP01

Instant Pump Automation

Just Add iQPUMP01

App control for Jandy® variable-speed pumps

Smart Pump Control In the Palm of Your Hand

The iQPUMP01 interface allows pool professionals to easily install, set up, and control the pump using a smartphone and the iAquaLink app.

Easy Onsite Setup

Wirelessly connect directly to the pump using a smartphone and iAquaLink app. Built-in hotspot technology makes pump setup and programming simple — even without Internet access.

Anytime, Anywhere Control

Control the pump anytime, anywhere with the iAquaLink app when connected to the web. Access and edit schedules 24/7.

Conveniently Manage Key Service Functions

Simplified remote-mounted user interface allows access to common service features. Service functions can also be accessed via a smartphone and iAquaLink app.

Customize for Maximum Energy Efficiency

Pumps can be programmed to run at non-peak energy periods and to run at the minimum speed needed for cleaning and heating. Energy consumption can be adjusted to pool's needs.

Program in Seconds *(Coming Soon!)*

Previously programmed pump schedules can be saved as templates and copied to new installations without requiring installers to access multiple set-up screens, enter passwords, or worry about other configuration details.

iQPUMP01

Easy to Connect and Set Up With or Without Internet Access

Use iQPUMP01 to connect to and control the pump via the Wi-Fi hotspot function, the Internet, or the physical interface.

Wi-Fi Automation

(A) **Wi-Fi to PHONE** — for setup and programming...with or without Internet access

(B) **Wi-Fi to WEB** — for anytime, anywhere app control

(C) Service Modes

OFF — pump will not operate

TIMED STOP* — temporarily stops pump for 1-24 hours for servicing

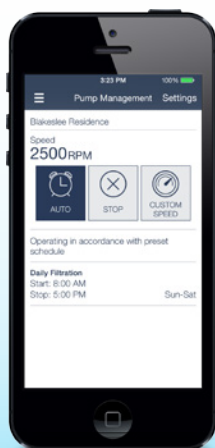

TIMED RUN* — pump will run for period of time to ensure circulation of added chemicals

* duration of Timed Stop and Timed Run can be customized in Wi-Fi to Phone mode.

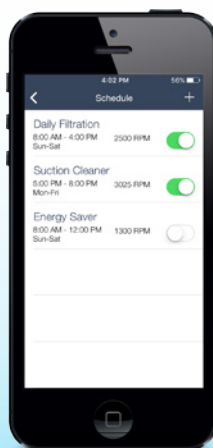

Simplified Pump Management

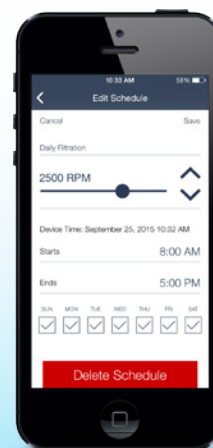

All critical pump functions are just a tap away — whether poolside or from across town.

Pump management 24/7

Schedules can be enabled and disabled

Schedule editing is as easy as a calendar entry

Technical Details

LAN Wi-Fi connectivity	Wi-Fi 802.11g*
LAN Wired (Ethernet) connectivity	not available **
Direct to Phone Wi-Fi connectivity	Wi-Fi 802.11g*
Wi-Fi range (outdoor, line-of-site)	at least 500' **
Works with all Jandy VS pumps	Yes
Works with Jandy SVRS VS pumps	Yes
Free app available for	iOS & Android
Works with Jandy Single-speed / 2-speed pumps	No
